## Employment

201 Creative, Owner 1/15 - present

Started LLC to provide programming solutions for established businesses and new start-ups. Special focus on streamlining and enhancing processes for development teams.

Small Shops United, CTO 7/1 - present

SSU focuses on digital loyalty and offers for locally-owned businesses. Customer information is captured at the time of purchase with a tablet, organized, graphed and analyzed for the business owner on a website. Currently supports over 60 businesses in the Milwaukee area.

Liturgical Publications, Web Dev Manager 10/10 - 2/15

Managed a team of 3 web developers, 2 web designers, 1 dev-ops programmer/admin, and 1 QA associate. Together with the team, was responsible for 5 full stack individual web properties averaging over 4 million hits per month. Introduced a system of source control, project management, quoting, quality assurance and business analysis.

c21 Interactive, Lead Software Architect 3/09 - 9/10

Analyzed business requirements to extend open source software, and create new development with PHP. Creating social networking software for political campaigns, interfacing with e-mail providers, Salesforce and other third parties.

and there's more...

JobShouts, LLC: Director of Software Engineering, 2/09 - 8/09

Rogers Software Development: Programmer 3, 7/08 - 1/09
